

Estate Planning Services

We are delighted to announce that The Will Writing Company, which is part of the Legal Services Network, has been appointed under the Whitechurch Provider Partnership Programme for will writing and estate planning matters.

The Will Writing Company is the appointed service provider at Leeds Building Society and Newcastle Building Society and a whole host of other well known financial services brands. They have demonstrated over a sixteen year period to be a reliable and trustworthy partner to those working in the Financial Services Profession.

We have negotiated terms with The Will Writing Company Ltd and its affiliated Legal Services Network members to provide you with a group related fee sharing scheme. As a network member you will immediately receive a minimum of 15% of their fee charges. This will increase in line with pre-agreed threshold to as much as 25%.

You can now provide your clients with a basic will writing service from £90 per person to a holistic tax planning and probate device for around £990 per person.

The Will Writing Company or one of the local Legal Services Network partners will be contacting you over the next month or so to explain the professionalism of their services and more importantly to explain how they will support and add value to your business. These particular will writing and tax planning devices are not regulated by the FSA.
